

VIDEO & COMPUTING

SONY

Block cameras, ALPHA series, Lidar, and machine vision for industrial, drone, and security markets.

avalue
Technology Inc.

Embedded computing, all-in-one systems, compute products, and ODM solutions for industrial and commercial needs.

AUO

Long-Life LCD panels for industrial, medical, and commercial use.

mercury

Rad-hard DDR, SSD's, and data recorders for space.

Lexar
ENTERPRISE

Storage and memory solutions for diverse applications.

Inventec

Global ODM for enterprise-class products like servers, cloud compute, and IoT products.

FIXPOSITION

Sensor fusion technology for real-time global positioning in GNSS degraded areas.

EFFICIENT

Revolutionizing energy efficiency in computing with spatial dataflow architecture and the Electron E1 processor.

SiMa^{ai}

Edge AI inference SoM for real-time machine learning on embedded and autonomous vision platforms.

CONTRACT MANUFACTURING

FOXCONN

Largest global EMS company – from PCBA to turnkey box-build, logistics, repair services, and global distribution.

FOXCONN
BAJA CALIFORNIA

EMS facility in Tijuana, Mexico, specializing in Medical Technology Manufacturing.

SMTC

US owned, vertically integrated EMS company serving Tier 1 and 2 OEM's in medical, military, and commercial markets.

HANA
Microelectronics Group

Thailand-based independent EMS and OSAT provider.

Helping engineers design with confidence since 1973.

Varigon Inc. is a leading manufacturer's representative firm specializing in space, mil/aero, medical, and commercial verticals with a highly synergistic line card. Since 2006, we've expanded into global contract manufacturing, offering OEM and ODM solutions through trusted partners across the USA, Mexico, Europe, and Asia.

IOT & CONNECTIVITY

REALTEK

Fabless semiconductor manufacturer serving wireless OEM's: RF, SoM, SoC, Wi-Fi, and Bluetooth products.

ALPSALPINE

Sensing devices, precision interconnect solutions, connectivity, and communication solutions.

OLE WOLFF

Acoustic and Magnetic components with unique application support and design capabilities.

POWER PRODUCTS

VPT

Chip-and-wire hybrid & discreet SMT DC/DC converters and filters for military and space applications.

SENSITRON
SEMICONDUCTOR

Power semiconductors, modules, controllers, and diodes for military and aerospace applications.

EPC SPACE

Rad-hard GaN transistors, IC's, and modules for use in space applications.

VPT
COMPONENTS

Wide range of JAN – JANSR Rad Hard MOSFETs, 100% manufactured in the USA.

TOTEX

Custom Li-Ion battery packs and chargers for medical, commercial, and military applications.

TADIRAN
BATTERIES

Lithium Thionyl Chloride (LiSOCl₂) and Li-Ion batteries for industrial, wide temp and high cycle applications.

MEGMEET

Standard and custom industrial and medical power supplies that meet IRA guidelines.

flex

High-efficiency, power dense DC/DC converters for telecom, data center, medical, and industrial applications.

EGI
BATTERY

U.S. manufacturer of semi-solid-state lithium-ion and silicon-rich high-performance advanced battery cells.
