

Video & Computing

SONY

Block cameras, ALPHA series, Lidar, and machine vision for industrial, drone, and security markets.

Embedded computing, all-in-one systems, compute products, and ODM solutions for industrial and commercial needs.

Long-Life LCD panels for industrial and commercial use.

Rad-hard DDR, SSD's, and data recorders for space.

Storage and memory solutions for diverse applications.

Global ODM for enterprise-class products like servers, cloud compute, and IoT products.

Sensor fusion technology for real-time global positioning in GNSS degraded areas.

Helping engineers design with confidence since 1973.

Varigon Inc. is a leading manufacturer's representative firm that helps electronics companies move products from design to production efficiently, specializing in high-value markets including space, mil/aero, medical, and commercial power. Since 2006, it has expanded into global contract manufacturing, offering OEM and ODM solutions through trusted partners across the USA, Mexico, Europe, and Asia.

Orange County Office

200 Newport Center Drive #304
Newport Beach, CA 92660
Phone: (949) - 720 - 8399

San Diego Office

4420 Hotel Circle Ct. #160
San Diego, CA 92108
Phone: (619) - 541 - 8222

Contract Manufacturing

Largest global EMS company - from PCBA to turnkey box-build, logistics, repair services, and global distribution. Production facilities and R&D centers in North America, Europe, and Asia.

EMS facility in Tijuana, Mexico, specializing in PCBA, turnkey box-build, logistics, repair services, and global distribution.

US owned, vertically integrated EMS company serving Tier 1 and 2 OEM's in medical, military, and commercial markets.

Thailand-based independent EMS and OSAT provider.

Power Products

Chip-and-wire hybrid & discreet SMT DC/DC converters and filters for military and space applications.

Power semiconductors, modules, controllers, and diodes for military and aerospace applications.

Rad-hard GaN transistors, IC's, and modules for use in space applications.

Wide range of JAN - JANSR Rad Hard MOSFETs, 100% manufactured in the USA.

Custom Li-Ion battery packs and chargers for medical, commercial, and military applications.

Lithium Thionyl Chloride (LiSOCl₂) and Li-Ion batteries for industrial, wide temp and high cycle applications.

Standard and custom industrial and medical power supplies that meet IRA guidelines (Made in USA).

High-efficiency, power dense DC/DC converters for telecom, data center, medical, and industrial applications.

IoT & Connectivity

Fabless semiconductor manufacturer serving wireless OEM's: RF, SoM, SoC, Wi-Fi, and Bluetooth products.

Sensing devices, precision interconnect solutions, connectivity, and communication solutions.

Acoustic and Magnetic components with unique application support and design capabilities.
