

POWER PRODUCTS

IR is the #1 provider of military and aerospace power conversion products including power semiconductors, DC/DC converters and motor control products. Space level hybrid and discrete power supply products.

Totex designs and manufactures custom rechargeable battery packs of all chemistries as well as a family of custom modular chargers. China and US based contract manufacturing services available as vertical service.

Megmeet is China's leading manufacturer for flat panel display power supplies. With 350+ Chinese engineers Megmeet USA's custom and medical power supply division is both quick to market and cost effective.

EOS brand, high density, cost effective switching power supplies for medical, telecom and commercial applications. Internal and energy star external models ranging from 25W to 300W.

Global leader in high efficiency, high density board level DC/DC converters; Compliant PoL converters.

Tadiran's primary and rechargeable cells have the lowest self-discharge rate and widest operating temperatures in the industry. Tadiran's 30+ years invested in lithium thionyl chloride technology result in World's most powerful and reliable batteries that deliver unveiled performance in the harshest of environments.

CONTRACT MANUFACTURING

Foxconn is the global leader in contract manufacturing and vertically integrated solutions with 33 million square feet of manufacturing space spread over 14 production facilities and 12 R&D locations in Asia, Europe and the U.S.

A Global contract manufacturer, but it's an American company with local NPI capability.

Qual-Pro is a local LA based EMS provider with exceptional Quality and Customer service. ISO-9001, AS9100, UL13485, UL16949 & FDA.

HUMAN MACHINE INTERFACE

Sony Visual Image Products Group specializes in block, machine vision, IP/network, and smart cameras.

TFT LCD manufacturer for Monitor, TV and Open Market applications – from less than 2 inches to over 85 inches.

Global leader in line scan cameras and large format CMOS area sensors for specialty automotive, medical and industrial applications.

3M Touch Solutions – Single and Multi-touch systems, touch controllers, complete touch monitors from 21.5" up to 65". Projective Capacitive and Surface Capacitive technologies. 3M™ MicroTouch™ branded products.

Single board computer/embedded computers to applications as Industrial Automation, Kiosk, POS, POI, Gaming and Medical, low power consumption for your fanless and portability platform.

A global leader in Sensing Devices, Input & Control Electronics, and Connectivity & Communication Technologies

OTHER

Foxconn's FTP Group specializes in precision metal parts production including Consumer-grade extruded Aluminum chassis, forged and diecast parts for commercial, high volume applications, thermal/heat-transfer products.

Virtium is a leading innovator of embedded SSD and industrial memory solutions designed specifically to meet the dynamic requirements of embedded systems.

Mercury Systems is the leading provider of secure and safety-critical processing subsystem solutions.

About Us...

Since 1973, Varigon Inc. has been a leading manufacturer's rep firm, helping thousands of electronics companies complete their product designs on time, and with minimal obstacles, from component selection to production. Our traditional focus has been on **Components and Subsystems**, mainly providing **Power and Human Machine Interface** solutions to specific high value markets and applications that include medical, military, and industrial sectors. Varigon proudly represents the global leaders in each of our product categories.

In 2006, Varigon added **Contract Manufacturing** services to help our customers with their OEM and ODM electronics manufacturing needs. Our CM partners provide DFM and engineering services, local and global manufacturing options, and range from PCBA to full turnkey and end to end logistics services. Varigon represents notable contract manufacturers such as Foxconn, Sanmina, and Qual-Pro.
